

## **Senior Trips**

Senior trips must have the approval of each participating student's parents; the class sponsor; the superintendent; and the school board. The superintendent will not consider a plan for a senior trip unless the plan carries with it the recommendation and approval of each participating student's parent and the class sponsor. Likewise, the school board will not consider approval of plans for a senior trip unless it carries with it the approval and recommendation of the superintendent.

All expenses including travel and accommodations, relating to the senior trip may be paid out of the senior class funds with prior approval by the superintendent. Expenses are limited to those identified for other student activities and must be approved and accounted. Receipts for all expenses must be submitted to the superintendent. Expenses for activities must be approved prior to the activity by the superintendent.

The senior trip shall be limited to no longer than two nights and three days, and must be taken within state unless approved by the school board.

Appropriate chaperoning arrangements must be made in advance. If male and female students are attending the trip, then both a male and female chaperone must attend, as well. At least one of the chaperones must be the class sponsor or district employee approved by administration.
